

Consent for the Use of Photography

On occasion it is of benefit to the medical staff who participate in your care to employ the use of photographic or video equipment for private instructional purposes. In all cases, unless otherwise specified, your identity is not revealed in the images captured by the camera. Furthermore, the use or non-use of this equipment will have no bearing on the care you receive. This equipment will only be used with your consent to do so.

I have read the above statement and consent to the possible use of photographic equipment in the course of my care.
